Garden Talk

By
Appomattox Garden Club

Today we want to pass on to you several bits of information that have been of great value to us. We think you will wish to keep the following article in your scrap book:-

1. This first "tip" has to do with the scale that infests Euonymus shrubs. The Euonymus potens, the variety that has golssy evergreen foliage, small, greenish white flowers in the spring, and orange berries in the fall, is the variety most cherished by Appomattox gardeners. The scale covers the twigs, and the leaves are covered underneath with tiny white mites. The leaves turn yellow and fall off, and the stems dry and die. After many trials and errors, and after losing several fine, large shrubs, we were told concerning the following spray solution:

1 quart of mineral oil
2 teaspoons of Black Leaf 40
½ pint of water thickened with soap powder.

Spray every two weeks during the dormant season with this mixture.

We used this spray only once, and the scale was gone in several weeks. The paint attachment of a vacuum cleaner makes a fine sprayer—as it permits the spray to cover every inch of the plant, leaves and all.

2. The second "tip" tells how to harden cut flowers so they will hold their beauty and form after they are arranged.

Cut what ever blossoms and foliage you will need for your arrangement. Let the stems be as long as possible not to damage the plant. If it is convenient, and you do not have many stems, put them into a large bucket or pan having 3 or 4 inches of hot water. This water can be 120 degrees, or as hot as a very hot bath, but not boiling hot. If you need to carry the flowers some distance, cut the ends of the stems again, and on a slant, before putting them in the hot water. They will perk up and stand erect in a short while. It is miraculous what this hot drink can do for withered, tired, droopy flowers and foliage. When the water is cold and when you are ready to use the flowers, cut them again and arrange them, using cold water in the container.

3. This third item is called "A Minute Vacation." It is a prayer that was given to us by a friend, and is the best "tip" I can think of for gardeners and for all of us. It is as follows:

"Slow me down, Lord! Ease the pounding of my heart by the quieting of my mind. Steady my hurried pace with a vision of the eternal reach of time. Give me, amid the confusion of the day, the calmness of the everlasting hills. Break the tensions of my nerves and muscles with the soothing music of the singing streams that live in my memory. Help me to know the magical, restoring power of sleep. Teach me the art of taking minute vacations—of slowing down to look at a flower, to chat with a friend, to read a few lines from a good book. Remind me each day of the fable of the tortoise and the hare that I may know that the race is not always to the swift, that there is more to life than increasing its speed. Let me look upward into the branches of the towering oak and know that it grew great and strong because it grew slowly and well. Slow me down, Lord, and inspire me to send my roots deep into the soil of life's enduring values that I may grow toward the stars of my greater destiny. In Jesus' name, Amen."

You can avoid the snap and the crackle of man-made fiber garments during and after laundering. Simply add an anti-static liquid to the rinse water. The static characteristic of these fibers causes them to pick up and hold dust and lint. An anti-static solution — which you can buy at your drug or grocery store —will counteract the static in the fibers.

PROPER FACILITIES ADD PROFIT TO LIVESTOCK

You can cut labor needs, produce higher quality animals, and pocket more profits if you have adequate facilities for handling livestock.

That's the tip from G. D. Kite, agricultural engineer at VPI. He points out that since the start of World War II farm wages have quadrupled. But labor costs for livestock production were cut only 7 percent during the period, while crop labor needs were cut 24 percent. Livestock now takes 40 percent of all farm labor.

For cattle producers, Kite lists pens and chutes, head gates, and loading ramps, as among the necessary facilities.

These facilities will make easier the frequent chores of vaccinating, testing, spraying, de-horning, separating, etc. A livestock farm with needed facilities will be safer for labor, the animals will be handled more easily, there will be fewer bruises and better quality meat, and veterinarians can do their jobs quicker and better.

Kite stresses strong construction. Fences for cattle should be at least five keet high. Posts should be five to six inches in diameter and placed 2½ to 3 feet in the ground. Gates should have strong latches and be easily operated.

Plans for pens, chutes, loading ramps, etc., are available from county agents.

News Around Town

By Mrs. Calvin Robinson

I liked this one:
"Mommy, please buy me some candy."
"Absolutely not, Monika. You had candy twice this week already. It's not good for you to eat much candy."
"But, Mommy, I feel fine. Please buy some candy!"
"Well, O. K.," sighed the mother. "Get the candy."
"That's swell." Then, after a short pause. "But I want to tell you one thing. Daddy's right. You have no will power." —Quote.

It seems that I have another hobby — collecting gourds. Thanks to Mr. A. B. Evans, at Buchanan's Barber Shop, for a gourd he brought me this week. I recall that drinking water tastes mighty good out of a gourd. I now have four gourds, but still want a few more.

Judge and Mrs. Joel W. Flood and son, Hal, left Sunday for Nags Head, N. C., for the week.

Mr. and Mrs. Ned LeGrand and son, Joe, left Tuesday for Myrtle Beach, S. C., where they will spend the rest of this week.

Flash! Good news! We will welcome back to Appomattox our dear friends, Mr. and Mrs. George L. Langran, who have been making their home at Miami, Florida. Mr. and Mrs. Langran will re-occupy the same home they had before leaving.

Mr. and Mrs. Lawrence Moore and family will leave Monday for North Tonawanda, New York, where they will make their home. Mr. Moore has accepted a mechanical position with the Chevrolet agency there. North Tonawanda is very near Niagara Falls. We hate to see these fine people leave Appomattox, and the welcome mat is always out for them to visit the old home town!

Mr. and Mrs. David M. Trent and children, Sandra, Betty Leah and Brenda, are spending this week at Nags Head, N. C. The Trents spent last week visiting in New Jersey, Newport News and other points of interest.

Mr. and Mrs. 'Boots" LeGrand and Misses Elsie and Myrtle Moore spent last week at Virginia Beach. The LeGrand's daughter, Marty, spent the week with her grandparents, Mr. and Mrs. Clyde Moore.

Susan Burke celebrated her 9th birthday on Monday, July 23. She had a number of her friends as overnight guests. A slumber party was held, with a birthday cake and refreshments. Guests included: Grey Holland, Susan Nell O'Brien, Gene Cole, Judy Smith, Cynthia Richardson, Vickie Smith, Lina Trent, and Becky Barger. The following morning, they were entertained at breakfast, followed by a croquet party, and refreshments.

Thanks to Mrs. Sam Anderson for the lovely flowers that I have on my desk today. They are dahlias of a beautiful tint, and some very pretty glads.

Mr. and Mrs. R. L. Rogers and daughter, Patty, of Hopewell; Mr. and Mrs. P. L. Rogers and son, Charles, of Front Royel; Mrs. Guy Chetalet, and son, Guy Jr., of San Francisco, California; Mr. and Mrs. R. E. Fore, Sr., of Pamplin; Mr. and Mrs. R. E. Fore, Jr., of Farmville, and Mr. and Mrs. E. C. Rogers of this place were among those who attended the Rogers Reunion at Moore's Lake near Petersburg on Sunday. There were 86 present for the reunion.

Mr. Gene Paulette has accepted a splendid position as the executive vice-president and cashier of the Bank of Middlesex, Urbanna. He will assume his new duties September 1. We certainly hate to see Gene leave Appomattox, but we do wish for him the best of everything.

Edwin S. Barron, of Arlington, who holds a commission at Lieutenant in the U. S. Naval Reserve, after having completed two weeks of active training duty in Berkley, Va., will arrive Saturday to spend several days in the home of Mr. and Mrs. G. L. Doss prior to visiting his parents, Mr. and Mrs. Louis Barron in Norfolk. He will be accompanied to Norfolk by his wife and daughter, who have been with the Dosses for several weeks.

The Appomattox Lions Club will meet tonight at 6:45. This fine group is in the midst of a drive to build up attendance percentage. The District Governor of Lions International will be at tonight's meeting.

Rep. and Mrs. Watkins M. Abbitt will be guests tonight of Governor and Mrs. Thomas B. Stanley at the Executive Mansion in Richmond.

The Rev. and Mrs. Clyde Shelton plan to move into the Lawrence Moore home the first of the week.
